ADA CERP® | Continuing Education Recognition Program

The Northeast Dental Society is an ADA CERP recognized provider approved by the MDA. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The Northeast Dental Society designates this activity for 3 continuing education credits.

ORTHODONTICS - MORE THAN JUST STRAIGHT TEETH (3CE)

This course will review the universe of orthodontics beyond the conventional orthodontic practice. The lecturer's practice is focused on skeletal malformations and a variety of cases will be presented to allow the dental practitioner to learn the options available for their most complex patients. The lecturer also has an interest in complex adult multidisciplinary cases and will present orthodontic treatment pearls for vexing restorative problems.

1. Craniofacial/Cleft Lip & Palate Care – It Takes a Team
2. Orthognathic Surgery, Plus Orthodontics' Role in Sleep Medicine
3. Macgygerodontics – Orthodontic Solutions for Restorative Problems

Course Objectives:

- Review etiology, epidemiology, treatment sequencing and procedures in modern team-based cleft-craniofacial care.
- Learn to assess the 4 dimensions of orthognathic surgery treatment and the achievable envelopes of orthodontic camouflage vs orthognathic surgery.
- Learn the importance of putting teeth in the right place so jaws can be put in the right place and vice versa for orthognathic surgery.
- Get an update from the American Association of Orthodontists 2019 airway conference. What's true, what's hype and what's the way forward?
- Learn how to use orthodontics as an adjunct to solve aesthetic, periodontal, endodontic and restorative challenges in everyday dental practice.

MARK J. BENTELE, DDS, MS is a native of Macon MO. He attended Mizzou and graduated from the UMKC School of Dentistry with a DDS and from The Ohio State University College of Dentistry Orthodontic Residency. After a 20 year career in the Air Force and retiring at the US Air Force Academy he established a private practice in Colorado Springs that is focused on cleft/craniofacial care, orthognathic surgery and adult interdisciplinary care. He is the orthodontist on the Children's Hospital Colorado Cleft Lip & Palate Team and is a member of the clinical faculty, University of Colorado School of Medicine, Department of Otolaryngology. He is a Diplomate of the American Board of Orthodontics.
